

2016 REVIEW

CSU Ventures is dedicated to the business of technology transfer and commercialization at Colorado State University. We bring innovations and technologies discovered at CSU into the marketplace for the benefit of society.

Proof of Concept Funding

More than \$943K was awarded to advance thirteen technologies towards commercialization under the Advanced Industries Accelerator Proof of Concept Program and CSU Ventures Creative Works Program. CSU researchers from four different colleges and ten different departments were awarded funding.

Demo Day

250+ students, faculty and researchers attended the largest on-campus event focused on innovation and entrepreneurship. Over \$18,000 was awarded to best in show competitors for their innovative work and accomplishments.

Tanovea Sales

First and only FDA approved drug (Tanovea) for use in dogs, from CSU Startup, VetDC. For use in dogs with lymphoma, one of the most common cancers affecting pets today.

2017 Innovative Excellence Award

Matthew Wallenstein
Colin Bell
Rich Conant

Recognized for their innovative contributions to soil supplements that enhance plant growth and minimize environmental impact through CSU startup company, Growcentia.

Launchpad

In FY2017 Launchpad helped XX startups launch their businesses. Working with company founders and business drivers, LAUNCHPAD is able to identify the startup's needs and then match resources to maximize the value and impact of the idea.

Graduate Student Ambassadors

To better serve the CSU community the ambassador program was created to enhance the connection between CSU faculty and students. Twenty-seven graduate students from 16 graduates across eight colleges have participated in the program over the last six years.

OUR RESULTS

Since CSU Ventures was founded in 2007 there have been more **inventions disclosed**, more **licenses**, more **startups**, more **patent applications**, and more **revenue** than the previous 40 years.
